SFEIR

SFEIR

Cloud and Data Engineering Director

Mai 2022 – Présent **3 ans 9 mois**

- > First as Cloud Engineering Manager, then Director of the Cloud division since 2023, and the Data division since 2025.
- > Direct management of 15-20 Engineering Managers and Staff Engineers.
- > Responsible for approximately 180 people in total, including Cloud and Data Engineers, Cloud and Data Architects, SRE, DevOps, ML Engineers, etc.
- > Development of Cloud, Data, and AI activities, relationship with partners (Databricks, Scaleway, Google Cloud, CastAI, etc.).
- > Improvement of internal processes, design and operation of the internal Data Platform.
- > Participation in recruitment, pre-sales, consultant positioning, offer construction.

SFEIR

Infrastructure and Ops Technical Architect

Fév 2026 – Présent **0 mois**

- > Technical analysis and studies.
- > Architecture design and drafting of Technical Architecture Documents.
- > Environment: GCP, Azure, TAD

SFEIR

Cloud Strategy Consultant

Déc 2025 – Fév 2026 **2 mois**

- > Stakeholder interviews.
- > Needs synthesis.
- > Strategy proposal.
- > Environment: GCP, Azure, AWS

SFEIR

GCP Cloud Landing Zone Architect

Déc 2025 – Fév 2026 **2 mois**

- > Technical workshops.
- > Architecture choices.
- > Application of Google's Fast Fabric.
- > Environment: GCP, terraform, Fast Fabric, Palo Alto, NCC.

SFEIR

Cloud and Solution Architect

Sep 2021 – Sep 2025 **4 ans**

- > Clienteling application architecture: component choices, API, security.
- > Cloud and DevOps: Continuous improvement infra As Code, CI/CD, GitOps (GCP, Kubernetes, FluxCD).
- > Transverse architecture: Facilitating workshops between squads, Use-Case management.
- > Technical support and training for integrating partners of the group's Maisons.
- > Environment: GCP, Kubernetes, FluxCD, Github Actions, Salesforce, NodeJS, Nest.js, Alibaba Cloud, Aliyun, Micro-services.

Mixdata

Mixdata

CTO

Sep 2017 – Sep 2021 **4 ans**

- > Creation of a Mixdata World platform.
- > Production supervision, technical and business KPI analysis.
- > Reduction of technical debt and coding.
- > Industrialization of scraping and web crawling.
- > Environment: Java, Spring Boot, Angular, MySQL, Elastic Search, Redis, Cassandra, Python, Kotlin, React, Hadoop, Spark, Ansible, Terraform, AWS, Azure, Docker, Kubernetes.

Canal+

Canal+

Edition Technical Department

Engineering Manager

Fév 2016 – Jul 2017 **1 an 5 mois**

- > Formation and management of a team of 10 people.
- > Definition of general architecture and technical foundation.
- > Implementation of the software factory and propagation of agile/devops methodologies.
- > Environment: Scala, Play, Akka, Angular 2, PostgreSQL, MongoDB, Nginx, SaltStack, AWS, Python, Docker, Jenkins.

Canal+

Distribution Technical Department

Architect and DevOps Lead

Mai 2012 – Jan 2016 **3 ans 8 mois**

- > Responsible for the HAPI project infrastructure and deployment track.
- > Co-responsible for HAPI general architecture.
- > Steering the technical redesign of ATG 16.3.
- > Implementation of new development workstation (Linux).
- > Environment: SaltStack, AWS, Python, Docker, Jenkins, Scala, Play, Redis, Elastic Search, Cassandra, Nginx, ATG, Jboss, Oracle.

Viséo Technologies

Viséo Technologies

Client Transports Assignment

Scrum Team Member / MCO Architect

Jan 2011 – Avr 2012 **1 an 3 mois**

- > Optimization of Eclipse development tool and Maven migration.
- > Automation of delivery/deployment processes.
- > Environment: Oracle Data Integrator, Java/JEE, Maven, Spring, SoapUI, Groovy, Memcached.

Viséo Technologies

Client Transports Assignment

Tech Lead / Functional and Technical Support

Août 2010 – Jan 2011 **5 mois**

- > Monitoring of outsourced developments (CDS).
- > Conducting architecture and load tests.
- > Environment: Java/JEE, Maven, Spring, Oracle RDBMS, Log4j, CXF/Axis, Weblogic.
